#### INDEPENDENT AUDITOR'S REPORT

Board of Supervisors Fort Bend County Fresh Water Supply District No. 1 Fort Bend County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Fort Bend County Fresh Water Supply District No. 1 (the "District"), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Board of Directors Fort Bend County Fresh Water Supply District No. 1

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the Water District Financial Management Guide is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purpose of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, and the schedule of expenditures of federal awards, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 4, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

McCall Gibson Swedlund Barfoot PLLC Certified Public Accountants Houston, Texas

June 15, 2018

Management's discussion and analysis of Fort Bend County Fresh Water Supply District No. 1's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2017. Please read it in conjunction with the District's financial statements.

#### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

#### GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all of the District's assets, liabilities, and deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

#### **FUND FINANCIAL STATEMENTS**

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has three governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, operating costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of

#### **FUND FINANCIAL STATEMENTS** (Continued)

assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in the Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

#### NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

#### OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). A budgetary comparison schedule is included as RSI for the General Fund.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$12,967,263 as of December 31, 2017. A portion of the District's net position reflects its net investment in capital assets (water and wastewater facilities less any debt used to acquire those assets that are still outstanding). The following is a comparative analysis of government-wide changes in net position:

#### FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of December 31, 2017, were \$10,300,600, a decrease of \$4,832,199 from the prior year.

The General Fund fund balance decreased by \$670,968 primarily due to transfers to the Capital Projects Fund.

The Debt Service Fund fund balance decreased by \$675,597, primarily due to the structure of the District's outstanding debt service requirements.

The Capital Projects Fund fund balance decreased by \$3,485,634, primarily due to capital outlay paid from bond proceeds received in prior years in addition to transfers from the General Fund.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Supervisors did not amend the budget during the fiscal year. Actual revenues were \$644,365 more than budgeted revenues primarily due to tax revenues, service revenues and tap connection fees exceeding the budgeted amounts. Actual expenditures were \$776,656 more than budgeted expenditures primarily due to higher professional fees, repairs and maintenance, water authority assessments, tap connection costs and capital outlay than budgeted.

#### **CAPITAL ASSETS**

Capital assets as of December 31, 2017, total \$30,395,902, and include water and wastewater facilities. Current year capital outlay included Teleview Terrace Subdivision water and wastewater service lines, Phase II and Phase III water line improvements, Marbill Estates and Ridgeway Estates subdivision water distribution and wastewater collection system, and Trammel-Fresno water line.

Capital Assets At Year-End, Net of Accumulated Depreciation

	2017		2016	Change Positive (Negative)
Capital Assets Not Being Depreciated: Land and Land Improvements Construction in Progress Capital Assets, Net of Accumulated Depreciation:	\$ 7,000 2,705,203	\$	7,000 4,540,767	\$ (1,835,564)
Water System Wastewater System	 19,152,943 8,530,756	_	16,283,483 4,719,332	2,869,460 3,811,424
Total Net Capital Assets	\$ 30,395,902	\$	25,550,582	\$ 4,845,320

#### LONG-TERM DEBT

As of December 31, 2017, the District had total bond debt payable of \$27,860,000. The changes in the debt position of the District during the fiscal year ended December 31, 2017, are summarized as follows:

Bond Debt Payable, January 1, 2017	\$ 28,880,000
Add: Bond Sale	5,365,000
Less: Bond Principal Paid/Refunded	 6,385,000
Bond Debt Payable, December 31, 2017	\$ 27,860,000

The Series 2016 and Series 2017 bonds carry an insured rating of "AA" from Standard and Poor's by virtue of bond insurance issued by Build America Mutual Assurance Company and Assured Guaranty Municipal Corporation, respectively. The underlying rating assigned to the Series 2016 and Series 2017 Bonds is "Baa1". The District's other bonds were not rated for the current and prior years.

#### CONTACTING THE DISTRICT'S MANAGEMENT

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Fort Bend County Fresh Water Supply District No. 1, c/o Sanford Kuhl Hagan Kugle Parker Kahn LLP, 1980 Post Oak Boulevard, Suite 1380, Houston, TX 77056.

## FORT BEND COUNTY FRESH WATER SUPPLY DISTRICT NO. 1 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION DECEMBER 31, 2017

Total Fund Balances - Governmental Funds

\$ 10,300,600

Amounts reported for governmental activities in the Statement of Net Position are different because:

Interest paid in advance as part of a refunding bond sale is recorded as a deferred outflow in the governmental activities and systematically charged to interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter. Also, prepaid bond insurance is amortized over the life of the bonds.

264,134

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in the governmental funds.

30,395,902

Deferred inflows of resources related to property tax revenues and penalty and interest receivable on delinquent taxes for the 2016 and prior tax levies became part of recognized revenue in the governmental activities of the District.

515,387

Certain liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. These liabilities at year-end consist of:

Accrued Interest Payable Bonds Payable \$ (334,475) (28,174,285)

(28,508,760)

Total Net Position - Governmental Activities

\$ 12,967,263

collected. However, in the Statement of Activities, revenue are recorded when penalty and interest are assessed.  18,105  Governmental funds do not account for depreciation. However, in the Statement of	
the Statement of Activities. (680,013)	)
Governmental funds report capital expenditures as expenditures in the period purchased. However, in the Statement of Net Position, capital assets are increased by new purchases and the Statement of Activities is not affected.  5,525,333	
Bond premiums, bond discounts and bond insurance premiums are amortized over the life of the bonds and the current year amortized portion is recorded in the Statement of Activities. (486,205)	)
Governmental funds report bond principal payments as expenditures. However, in the Statement of Net Position, bond principal payments are reported as decreases in long-term liabilities.  1,040,000	ı
Governmental funds report interest expenditures on long-term debt as expenditures in the year paid. However, in the Statement of Net Position, interest is accrued on the long-term debt through fiscal year-end.  63,770	ı
Governmental funds report bond proceeds as other financing sources. Issued bonds increase long-term liabilities in the Statement of Net Position. (5,365,000)	)
Governmental tunds report the payment to the retunded bond escrow agent as an other financing use. However, the refunding of outstanding bonds decreases long-term liabilities in the Statement of Net Position.  5,542,210	)
Change in Net Position - Governmental Activities \$ 842,172	

#### NOTE 1. CREATION OF DISTRICT

Fort Bend County Fresh Water Supply District No. 1 of Fort Bend County, Texas (the "District") was created as a political subdivision of the State of Texas pursuant to an order of the Fort Bend County Commissioner's Court dated January 18, 1997, and operates in accordance with Article XVI, Section 59 of the Texas Constitution and the Texas Water Code, Chapters 49 and 53. The District is empowered, among other things, to purchase, construct, operate and maintain all works, improvements, facilities and plants necessary for the supply of water and the collection, transportation and treatment of wastewater. In addition, the District is empowered, if approved by the electorate, the Texas Commission on Environmental Quality and other governmental entities having jurisdiction, to establish, operate and maintain a fire department, either independently or jointly with certain other districts. The Board of Supervisors held its first meeting on February 11, 1997 and sold its first bonds on October 2, 2006. The District is subject to the continuing supervision of the Texas Commission on Environmental Quality.

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

#### Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting ("GASB Codification"). The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities.

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

- Net Investment in Capital Assets This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position—This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

#### Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenue and expense of the government-wide Statement of Activities.

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Fund Financial Statements**

As discussed above, the District's fund financial statements are combined with the government-wide statements. The fund statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

#### Governmental Funds

The District has three governmental funds and considers each to be a major fund.

<u>General Fund</u> - To account for resources not required to be accounted for in another fund, customer service revenues, operating costs and general expenditures.

<u>Debt Service Fund</u> – To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

<u>Capital Projects Fund</u> – To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

#### **Basis of Accounting**

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectible within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Deferred inflows of resources related to property tax revenues are those taxes which the District does not expect to be collected soon enough in the subsequent period to finance current expenditures. Property taxes considered available by the District and included in revenue include the 2016 tax levy collections during the period of October 1, 2016 to December 31, 2017, and taxes collected from January 1, 2017 to December 31, 2017, for the 2015 and prior tax levies. The 2017 tax levy has been fully deferred to meet the operating expenditures for the 2018 fiscal year.

#### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Basis of Accounting (Continued)

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Interest costs, including developer interest, engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost greater than \$5,000 and a useful life over two years. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Water System	10-45
Wastewater System	10-45

#### Budgeting

In compliance with governmental accounting principles, the Board of Supervisors annually adopts an unappropriated budget for the General Fund. The budget was not amended during the current fiscal year.

#### **NOTE 2. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

#### Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that supervisors are considered to be "employees" for federal payroll tax purposes only.

#### Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

*Nonspendable*: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

*Restricted*: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Supervisors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

*Unassigned*: all other spendable amounts in the General Fund.

#### **NOTE 2. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

#### Measurement Focus (Continued)

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

#### **Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. LONG-TERM DEBT

-	Series 2006A	Series 2008	Series 2010	Series 2010A
Amount Outstanding – December 31, 2017	\$ 3,895,000	\$ 1,630,000	\$ 4,540,000	\$ 390,000

Interest Payment Dates		February 15/ August 15	February 15/ August 15	February 15/ August 15
Callable Dates		August 15, 2025*	August 15, 2025*	August 15, 2027*

<sup>\*</sup> Or any interest payment date thereafter, at the option of the District, in whole or in part, at par plus accrued interest to the date fixed for redemption. Series 2016 term bonds due August 15, 2030, August 15, 2033, and August 15, 2037, are subject to mandatory redemption on August 15, 2028, August 15, 2031, and August 15, 2034, respectively.

#### **NOTE 3. LONG-TERM DEBT** (Continued)

The following is a summary of transactions regarding bonds payable for the year ended December 31, 2017:

	January 1, 2017		Additions		R	Retirements		December 31, 2017	
Bonds Payable Unamortized Discounts	\$	28,880,000 (176,534)	\$	5,365,000	\$	6,385,000 (11,211)	\$	27,860,000 (165,323)	
<b>Unamortized Premiums</b>				486,205		6,597		479,608	
Bonds Payable, Net	\$	28,703,466	\$	5,851,205	\$	6,380,386	\$	28,174,285	
			Amount Due Within One Year		\$	1,100,000			
	Amount Due After One Year			Year		27,074,285			
			Bon	ds Payable, No	et		\$	28,174,285	

As of December 31, 2017, the debt service requirements on the bonds outstanding were as follows:

Fiscal Year	 Principal	Interest		 Total
2018	\$ 1,100,000	\$	974,578	\$ 2,074,578
2019	1,110,000		956,923	2,066,923
2020	1,130,000		928,012	2,058,012
2021	1,155,000		897,426	2,052,426
2022	1,190,000		864,932	2,054,932
2023-2027	6,555,000		3,749,748	10,304,748
2028-2032	5,265,000		2,732,476	7,997,476
2033-2037	6,235,000		1,650,773	7,885,773
2038-2042	2,865,000		562,247	3,427,247
2043-2045	1,255,000		109,231	1,364,231
	\$ 27,860,000	\$	13,426,346	\$ 41,286,346

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount. The District has remaining new money bond authorization of \$83,955,000 and refunding bond authorization of \$173,605,000.

During the year ended December 31, 2017, the District levied an ad valorem debt service tax rate of \$0.50 per \$100 of assessed valuation, which resulted in a tax levy of \$1,617,296 on the adjusted taxable valuation of \$323,157,464 for the 2017 tax year. The bond orders require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for the maintenance tax levy.

#### **NOTE 3. LONG-TERM DEBT** (Continued)

The District's tax calendar is as follows:

Levy Date - October 1 or as soon thereafter as practicable.

Lien Date - January 1.

Due Date - Not later than January 31.

Delinquent Date - February 1, at which time the taxpayer is liable for penalty and interest.

#### NOTE 4. SIGNIFICANT BOND ORDER AND LEGAL REQUIREMENTS

The bond orders state that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data to certain information repositories. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

The District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the bonds, within the meaning of Section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on the five-year anniversary of each issue.

#### NOTE 5. DEPOSITS AND INVESTMENTS

#### **Deposits**

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$4,816,011 and the bank balance was \$4,670,108. The District was not exposed to custodial credit risk as of year-end.

#### **NOTE 5. DEPOSITS AND INVESTMENTS** (Continued)

#### Deposits (Continued)

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at December 31, 2017, as listed below:

		C	ertificate		
	 Cash		of Deposit		Total
GENERAL FUND	\$ 1,990,571	\$	218,930	\$	2,209,501
DEBT SERVICE FUND	1,012,080				1,012,080
CAPITAL PROJECTS FUND	 1,594,430				1,594,430
TOTAL DEPOSITS	\$ 4,597,081	\$	218,930	\$	4,816,011

#### Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Supervisors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. Federated Investors, Inc. manages the daily operations of TexPool under a contract with the Comptroller. TexPool and the money market mutual fund measure all portfolio assets at amortized cost. There are no limitations or restrictions on withdrawals from these investments. The District records certificates of deposit at amortized cost.

#### **NOTE 5. DEPOSITS AND INVESTMENTS** (Continued)

Investments (Continued)

As of December 31, 2017, the District had the following investments and maturities:

Fund and Investment Type	Fair Value	Maturities of Less Than 1 Year
GENERAL FUND TexPool Certificate of Deposit	\$ 307,739 218,930	\$ 307,739 218,930
DEBT SERVICE FUND TexPool	3,371,106	3,371,106
CAPITAL PROJECTS FUND Money Market Mutual Fund	2,437,974	2,437,974
TOTAL INVESTMENTS	\$ 6,335,749	\$ 6,335,749

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2017, the District's investments in both TexPool and the money market mutual fund were rated AAAm by Standard and Poor's. The District also manages credit risk by investing in certificates of deposit with balances below FDIC coverage.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investments in TexPool and the money market mutual fund to have maturities of less than one year due to the fact the share positions can usually be redeemed each day at the discretion of the District, unless there have been significant changes in values. The District also manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes. All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

#### NOTE 6. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2017:

	January 1, 2017	Increases	]	Decreases	D	ecember 31, 2017
Capital Assets Not Being Depreciated						
Land and Land Improvements	\$ 7,000	\$	\$		\$	7,000
Construction in Progress	 4,540,767	 5,525,333		7,360,897		2,705,203
Capital Assets Subject to Depreciation						
Water System	\$ 18,481,936	\$ 3,407,088	\$		\$	21,889,024
Wastewater System	 4,836,300	 3,953,809				8,790,109
Total Capital Assets Subject to Depreciation	\$ 23,318,236	\$ 7,360,897	\$	- 0 -	\$	30,679,133
Less Accumulated Depreciation						
Water System	\$ 2,198,453	\$ 537,628	\$		\$	2,736,081
Wastewater System	 116,968	 142,385			_	259,353
<b>Total Accumulated Depreciation</b>	\$ 2,315,421	\$ 680,013	\$	- 0 -	\$	2,995,434
Total Depreciable Capital Assets, Net of Accumulated Depreciation	\$ 21,002,815	\$ 6,680,884	\$	- 0 -	\$	27,683,699
Total Capital Assets, Net of Accumulated Depreciation	\$ 25,550,582	\$ 12,206,217	\$	7,360,897	\$	30,395,902

#### NOTE 7. MAINTENANCE TAX

At an election held on November 4, 2014, the voters of the District authorized the levy and collection of an annual maintenance tax for the operation and maintenance of the District's improvements in an amount not to exceed \$0.50 per \$100 of assessed valuation. The maintenance tax is to be used by the General Fund to pay the expenditures of operating the District's facilities as well as to pay for general and administrative costs. During the year ended December 31, 2017, the District levied an ad valorem maintenance tax rate of \$0.50 per \$100 of assessed valuation, which resulted in a tax levy of \$1,617,296 on the adjusted taxable valuation of \$323,157,464 for the 2017 tax year. The 2017 tax levy has been fully deferred to meet fiscal year 2018 expenditures.

#### NOTE 8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters. The District participates in the Texas Municipal League Intergovernmental Risk Pool (TML) to provide various types of property and liability insurance coverage. The District, along with other participating entities, contributes annual amounts determined by TML's management. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### NOTE 9. FORT BEND COUNTY GRANT AGREEMENT

On November 17, 2011, the District entered into an agreement with Fort Bend County. The County applied for and received an FY2008 Environmental Protection Agency State and Tribal Assistance Grant (STAG) for \$478,000 to be used for the design and construction of portions of the regional water system. The District is responsible for providing matching funds for the project. The District spent the final \$216,348 of the STAG funds in the current year.

#### NOTE 10. REGIONAL FACILITIES CONTRACT

On August 18, 2005, the District entered into a Regional Facilities Contract (Contract) with the City of Arcola (the City) for the provision of water and wastewater service. This contract was subsequently amended on April 11, 2006, September 25, 2012, and March 28, 2016. The Regional Sewer System (RSS), including the initial expansion, is owned and operated by the City. The District pays a portion of those RSS expenses directly attributable to the RSS, plus an administrative overhead fee not to exceed 20% of the District's portion of total RSS expenses. These RSS expenses are prorated based on relative capacity in the RSS. The District also pays a portion of variable RSS expenses based on the ratio of metered flow to the District versus total discharge.

The Contract also provided for the design and construction of the Regional Water System (Water System) to provide water service to both the District and the City. The portion of the Water System upstream of the water point of delivery plus the measuring equipment will be owned and maintained by the District and those portions downstream will be owned and maintained by the City. This contract was amended, extending the term of the contract through September 30, 2053.

#### NOTE 11. ESCROW REQUIREMENTS

In compliance with orders of the Texas Water Development Board (the "TWDB"), the District escrowed Series 2006A bond proceeds for the purpose of financing the acquisition and construction of a sanitary sewer system, Series 2008 bond proceeds for the purpose of financing certain water system improvements, Series 2010 bond proceeds for the acquisition and construction of a wastewater collection system, and Series 2015 bond proceeds for the acquisition and construction of water transmission facilities. The District will remove all or a portion of the funds from escrow in accordance with the written approval of the TWDB. The released funds may be used by the District as provided in the order authorizing issuance of the Bonds or as ordered by the TWDB. During the current year, funds from Series 2006A, Series 2008 and a portion of Series 2010 were released from escrow. As of year-end, only funds from Series 2010 and Series 2015 remain in escrow.

#### NOTE 12. EMERGENCY WATER SUPPLY AGREEMENT

On May 23, 2006, the District entered into an Emergency Water Supply Agreement with Fort Bend County Municipal Utility District No. 23 (District No. 23). The District was responsible for all costs associated with construction of such water interconnect facilities to be connected to the District's system. The rates for emergency water service are \$1.00 per 1,000 gallons plus any per 1,000-gallon pumpage fee that may be imposed on the supplying district by a governmental entity, including but not limited to the City of Missouri City or a regional water authority. The term of this agreement is 40 years.

#### NOTE 13. DUE TO / FROM OTHER FUNDS AND TRANSFERS

In connection with the construction of its water and sanitary sewer system, the District periodically enters into Plumbing Service Contracts for the installation of private-side water facilities necessary to bring water service from the District's tap to a qualifying resident's home. The funds allocated to these particular contracts originate from three distinct sources. The District receives some funds in the form of reimbursement from Fort Bend County pursuant to the Community Development Block Grant ("CDBG") program. This occurs when individual applicants (residents of the District) qualify for CDBG assistance. Secondly, certain portions of such contracts (i.e. all portions of the work done within the public right-of-way) are paid for through the District's DFUND loans from the Texas Water Development Board. Finally, the remaining funds for such projects come from the District's General Fund. In order to simplify payment of Contractor invoices, the balance of each such invoice is paid from the General Fund.

As of December 31, 2017, the Capital Projects Fund owed the General Fund \$150,658 for construction and engineering services previously paid by the General Fund but recently approved to be paid by the Capital Projects Fund and plumbing service contract costs. As of December 31, 2017, the District's Debt Service Fund owed the General Fund \$1,570,305 for tax collections.

During the current year, the Debt Service Fund transferred \$19,198 to the General Fund to reimburse bond issuance costs. The General Fund transferred \$1,180,625 to the Capital Projects Fund to cover construction and engineering services previously paid by the Capital Projects Fund and plumbing service contract costs.

#### NOTE 14. COMMUNITY DEVELOPMENT BLOCK GRANT

On February 19, 2009, the District entered an agreement with Fort Bend County regarding Community Development Block Grant (CDBG) funds. The agreement allocates \$250,000 to the District for use in connection with the Fresno Gardens house service line connection project. On March 21, 2013, this agreement was amended to increase CDBG funding from \$250,000 to \$275,000. The District received \$217,466 in the current year.

#### NOTE 15. NORTH FORT BEND WATER AUTHORITY

The District has entered into a Groundwater Reduction Plan Participation Agreement with the North Fort Bend Water Authority (the "Authority"). The Authority's purposes include the acquisition and provision of surface water and groundwater for residential, commercial, industrial, agricultural, and other uses, the reduction of groundwater withdrawals, the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, and the control of subsidence caused by withdrawal of water from those groundwater reservoirs or their subdivisions. The District agrees to pay the Authority a water well pumpage fee, based on the amount of water pumped from all well(s) owned and operated by the District. This fee will enable the Authority to fulfill its purpose and regulatory functions. The fee charged as of year-end was \$3.05 per 1,000-gallons of water pumped from each well. The District incurred costs of \$312,695 during the current fiscal year in relation to this agreement. The term of this agreement is for 40 years from the effective date of the agreement.

#### NOTE 16. REFUNDING BOND SALE

On September 21, 2017, the District closed on the sale of its \$5,365,000 Series 2017 Unlimited Tax Refunding Bonds. The proceeds were used to refund \$5,345,000 of Series 2008 Bonds with interest rates of 4.66% to 4.96%, maturities of 2025-2038, and a callable date of August 15, 2018. The refunding resulted in gross debt service savings of \$762,879 and net present value savings of \$531,167.

Board of Supervisors
Fort Bend County Fresh Water
Supply District No. 1
Fort Bend County, Texas

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Fort Bend County Fresh Water Supply District No. 1("the District") as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 15, 2018.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be material weaknesses (Reference No. 2017-001).

Board of Supervisors Fort Bend County Fresh Water Supply District No. 1

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **District's Response to Findings**

The District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Board of Supervisors Fort Bend County Fresh Water Supply District No. 1 Fort Bend County, Texas

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

#### Report on Compliance for Each Major Federal Program

We have audited Fort Bend County Fresh Water Supply District No. 1's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended December 31, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Board of Supervisors Fort Bend County Fresh Water Supply District No. 1

#### **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2017.

#### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### FORT BEND COUNTY FRESH WATER SUPPLY DISTRICT NO. 1 NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED DECEMBER 31, 2017

#### NOTE 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal award includes the federal grant activity of the District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

#### NOTE 2. GRANT FUNDS

On February 19, 2009, the District entered an agreement with Fort Bend County regarding Community Development Block Grant (CDBG) funds. The agreement allocates \$250,000 to the District for use in connection with the Fresno Gardens house service line connection project. On March 21, 2013, this agreement was amended to increase CDBG funding from \$250,000 to \$275,000. The District received \$217,466 in the current year.

On November 17, 2011, the District entered into an agreement with Fort Bend County. The County applied for and received an FY2008 Environmental Protection Agency State and Tribal Assistance Grant (STAG) for \$478,000 to be used for the design and construction of portions of the regional water system. The District is responsible for providing matching funds for the project. The District spent the final \$216,348 of the STAG funds in the current year.

#### NOTE 3. BOND PROCEEDS

The District has expended Series 2006A Unlimited Tax Bonds funds in the amount of \$6,935,000 from the TWDB, a pass-through entity for the Environmental Protection Agency's Clean Water State Revolving Fund, plus interest earnings. Of the funds expended, \$2,444,545 was expended in the current year. Bond proceeds were used for the purposes of financing the acquisition and construction of a sanitary sewer system. As of December 31, 2017, all 2006A bond proceeds have been expended.

The District has expended Series 2010 Unlimited Tax Bonds funds in the amount of \$3,997,796 from the TWDB, a pass-through entity for the Environmental Protection Agency's Clean Water State Revolving Fund, plus interest earnings. Of the funds expended, \$2,593,142 was expended in the current year. Bond proceeds are used for the purposes of financing the acquisition and construction of a wastewater collection system. As of year-end, \$1,287,204 remained in escrow. This project is still in progress as of year-end.

### FORT BEND COUNTY FRESH WATER SUPPLY DISTRICT NO. 1 NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED DECEMBER 31, 2017

#### NOTE 4. MATCHING COSTS

Matching Costs, the nonfederal share of certain program costs, are not included on the Schedule.

#### NOTE 5. INDIRECT COSTS

The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

#### NOTE 6. FEDERALLY FUNDED LOAN PROGRAMS

The District participates in certain federally funded loan programs, but none are direct from the federal agency. Certain outstanding bond issues were originally funded through the Clean Water State Revolving Fund via the Texas Water Development Board and involve no continuing compliance requirements other than to repay the loan. Only the Series 2010 funds are still available to fund programs. All others were expended in prior years.

Series	Funded Through	Balance _January 1, 2017_	Balance December 31, 2017
2006A	CWSRF	\$ 4,230,000	\$ 3,895,000
2010	CWSRF	\$ 4,670,000	\$ 4,540,000

#### Section II — Financial Statement Findings

Reference No. 2017-001

**Criteria:** Uniform Guidance states that the auditee shall prepare appropriate financial statements, including the schedule of expenditures of federal awards in accordance with .710 Financial Statements. Management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework, even if the auditor assists in drafting the financial statements.

Condition: The accounting function does not include preparation of the financial statements complete with footnotes in accordance with accounting principles generally accepted in the United States of America. Accordingly, the District has not established internal controls over the preparation of its financial statements. Also, during the course of performing our audit, we prepared various journal entries to present the financial statements on the government-wide basis of accounting. In addition, we prepared the capital asset and depreciation schedules and posted adjustments related to the presentation of the capital assets in the government-wide financial statements.

Cause: The District does not employ an individual or consultant to prepare financial statements complete with footnotes in accordance with accounting principles generally accepted in the United States of America.

**Effect:** This condition and the reliance on the auditor to perform these functions is considered to be a material weakness in the system of internal controls.

**Recommendation:** We recommend that the Board of Supervisors consider the requirements in the context of other entities of similar size and the District's facts and circumstances.

View of Responsible Officials: The Board of Supervisors is elected from the general population and do not necessarily have governmental accounting expertise. The Board engages consultants who possess industry knowledge and expertise to provide financial services, as well as legal and professional engineering services. Based on the auditor's unmodified opinion and after reading the financial statements, the Board believes the financial statements to be materially correct. The Board does not think that the addition of an employee or consultant to perform or reperform the annual financial reporting process is necessary, nor would it be cost effective.
